

Transfer Jump Box

Catalog # 35203

All Aluminum Construction

Sits supported on the cage transfer box rod, hooks attach to cage front, allowing it to hang unassisted.

Perfed holes on one side.

Ergonomically designed two handed grip for safer handling.

Horizontal door one end slides on UHMW guides, and locks with a Stainless Steel latch.

Can be used with our Transfer Box Tower, or on its own independent from the tower.

This product is an example of customer specifications given to us for design.
